I currently work as a full stack developer for Kano Computing, developing applications and platforms to help teach programming skills to children.

Right now I'm working on front-end applications using Typescript, including stemplayer.com, a creative music platform and collaboration with Kanye West.

I have over six years of professional experience working with the Django framework for web development and the React JavaScript library.

Professional experience:

Kano Computing

June 2021 – Present | Full-stack developer

- Development of stemplayer.com, a collaboration with Kanye West.
- Development of world.kano.me and associated Edutech web apps.

Reason Studios (formerly Propellerhead Software)

March 2014 – June 2021 | Developer

- Design & development of reasonstudios.com.
- Analysis and user segmentation based on engagement and behaviour.
- Marketing automation development, using Salesforce APIs.
- Infrastructure development, using Vagrant and Ansible, then Docker.
- Development of internal analytics dashboards.

Monki

April 2013 - January 2014 | Graphic designer / Final art

- Design for a range of material for print and web.
- Development of online campaigns for monki website.
- Design & development of internal sites to be used by store employees.

Bright Young Things Tuition (consultant)

September 2012 - March 2013 | Mobile app design / development

Design & implementation of educational mobile apps.

Craftsman Websites

January 2012 - August 2012 | Design / development

Projects included the 'Notting Hill Carnival App' a cross platform mobile app. Technologies used included PhoneGap and the Google maps API.

Technology I have experience working with:

Python: Django, Scrapy, Celery, Flask

JavaScript: Typescript, React, Reflux, Redux

iOS: Swift, React Native

Design: Sass, Photoshop, Illustrator, InDesign, Sketch, Figma

Infrastructure: AWS, Docker, Vagrant, Ansible, Webpack

Databases: Django ORM, Postgresql, MongoDB

Other: Salesforce, Adestra

Technologies I have worked with in the past:

pHp, Wordpress, ActionScript (Flash), ColdFusion

Education:

Edinburgh College of Art - University of Edinburgh.

Visual Communication

Graduated 2010
